**Sec. 107. External grievance process.**

**New Section

**ENROLLED ORIGINAL**

(d) Upon completion of the preliminary review, the Director shall notify the member or member representative and insurer in writing as to whether the appeal has been accepted for processing. If the appeal is accepted by the Director, the Director shall assign the appeal to an independent review organization for full review. If the appeal is not accepted by the Director, the Director shall provide a statement of the reasons for the nonacceptance to the member or member representative and the insurer.

(e) The staff of the independent review organization that is assigned to the appeal pursuant to subsection (d) of this section, shall have meaningful prior experience in performing utilization review, peer review, quality of care assessment or assurance, or the hearing of appeals. Any independent review organization, its staff, and its professional and medical reviewers, shall not have any material, professional, familial, or financial affiliation with the insurer that is a party to the appeal.

(f) The Director may waive exhaustion of the appeals process required by section 105 and 106 as a prerequisite for proceeding to the external appeals process in cases of emergency or urgent care.

(g) The insurer shall provide timely access to all its records relating to the matter under review and to all provisions of the health benefits plan or health insurance coverage, including any evidence of coverage, "member handbook", certificate of insurance or contract and health benefits plan relating to the matter.

(h) Upon acceptance of the appeal for processing, the independent review organization shall conduct a full review to determine whether, as a result of the insurer's decision, the member was deprived of any service covered by the health benefits plan.

(i) The full review of an appeal of a health benefits decision shall be initially conducted by at least 2 physicians licensed to practice medicine in the District of Columbia, Maryland, or Virginia. On an exceptions basis, when necessary based on the medical, surgical, or mental condition under review, the independent review organization may select medical reviewers licensed anywhere in the United States who have no history of disciplinary action or sanctions pending or taken against them by any governmental or professional regulatory body.

(j) In reaching a determination, the independent review organization shall take into consideration all pertinent medical records, consulting physician reports, and other documents submitted by the parties, any applicable generally accepted practice guidelines developed by the federal government, national or professional medical societies, boards and associations, any applicable clinical protocols or practice guidelines developed by the insurer, and may consult with such other professionals as appropriate and necessary.

(k) The member or member representative and one insurer representative may request to appear in person before the independent review organization. The independent review organization shall conduct the hearing in the District of Columbia. The independent review

organization's procedures for conducting a review, when the member or member representative or the insurer has requested to appear in person, shall include the following:

(1) The independent review organization shall schedule and hold a hearing as soon as possible after receiving a request from a member or member representative or from an insurer representative to appear before the independent review organization. The independent review organization shall notify the member or member representative and insurer representative, either orally or in writing, of the hearing date and location. The independent review organization shall not unreasonably deny a request for postponement of the hearing made by the member or member representative or insurer representative.

(2) A member or member representative and an insurer representative shall have the right to the following:

- (A) To attend the independent review organization hearing;
- (B) To present his or her case to the independent review organization;
- (C) To submit supporting material both before and during the hearing;
- (D) To ask questions of any representative of the independent review

organization; and

- (E) To be assisted or represented by a person of his or her choice.

(l) When necessary, the independent review organization shall consult with a physician or advance practice registered nurse trained in the same specialty or area of practice as the type of treatment that is the subject of the grievance and appeal. All final recommendations of the independent review organization shall be approved by the medical director of the independent review organization.

(m) The independent review organization shall complete its review and issue its recommended decision as soon as possible in accordance with the medical exigencies of the case. Except as provided for in this subsection, the independent review organization shall complete its review within 30 business days, or 72 hours in the case of an expedited appeal, from the time the Director assigns the appeal to the independent review organization. An insurer shall provide all documentation to the independent review organization within 5 days of receipt of the notice of approval of the appeal by the Director, or within 24 hours of receipt of the notice of approval of the grievance, for an expedited review. If an insurer does not provide the independent review organization all documentation required by this subsection within the time frames, or obtain the necessary extensions, the independent review organization may decide the appeal without receiving the information. The independent review organization shall extend its review for a reasonable period of time as may be necessary due to circumstances beyond its or the insurer's control, but only when the delay will not result in increased medical risk to the member. In such an event, the independent review organization shall, prior to the conclusion of the initial review

**ENROLLED ORIGINAL**

period, provide written notice to the member or member representative and to the insurer setting forth the status of its review and the specific reasons for the delay.

(n) If the independent review organization determines that the member was deprived of medically necessary covered services, the independent review organization shall recommend to the Director the appropriate covered health care services the member should receive. The Director shall forward copies of the recommendation to the member or member representative and the insurer.

(o) When necessary, the independent review organization shall refer a case for review to a consultant physician or other health care provider in the same specialty or area of practice who would generally manage the type of treatment that is the subject of the appeal. All final recommendations of the independent review organization shall be approved by the medical director of the independent review organization.

(p) The decision of the independent review organization shall be nonbinding on all parties and shall not affect any other legal causes of action.

(q)(1) This section shall not apply in cases directly involving Medicaid benefits.

(2) Any appeal brought pursuant to this section by a member involving coverage provided pursuant to the Medicaid program shall be resolved in accordance with federal and District of Columbia laws, regulations, and procedures established for fair hearings and appeals for the Medicaid program.

**Sec. 108. Certification and general requirements for independent review organizations.**

**New Section  
32-571.8**

(a) Each independent review organization selected by the Director to review external appeals must be certified every 2 years by the Director.

(b) The Director shall be responsible for developing, applying, and enforcing certification standards for independent review organizations. These standards shall ensure that an independent review organization:

(1) Properly maintains a policy involving the review of the appeal in strict confidence pursuant to rules established by the Director;

(2) Uses only qualified professional and medical reviewers in any review; and

(3) Demonstrates an ability to render decisions in an equitable and timely manner and consistent with this act.

(c) An independent review organization may not be a subsidiary of, or in any way owned or controlled by a health benefits plan, insurer, or trade association of health care providers.

(d) The Director shall develop an application form for certifying an independent review organization that contains a description of the organization, including names, biographical sketches of all directors, officers, and executives of the organization.

**ENROLLED ORIGINAL**

(e) The independent review organization shall submit to the Director the following information, for purposes of creating a file of public records, upon initial application for certification, and thereafter upon any change to any of this information:

- (2) The names of all holders of bonds or notes in excess of \$100,000 if any;

(f)(1) The independent review organization shall not have any material professional, familial, or financial conflict of interest with any of the following:

- (A) The insurer;
- (B) Any officer, director, or management employee of the insurer;
- (C) The physician, the physician's medical group, or the independent practice association or the treating provider proposing the service or treatment;
- (D) The institution at which the service or treatment would be provided;

or

(E) The development or manufacture of the principal drug, device, procedure, or other therapy proposed for the member whose treatment is under review.

(2) For the purposes of this subsection, the term "conflict of interest" shall not be interpreted to include a contract under which an academic medical center, or other similar medical research center, provides health services to the insurer's member, except as subject to the requirement of paragraph (1)(D) of this subsection, affiliations which are limited to staff privileges at a health facility; or an independent review organization's participation as a contracting insurer's provider where the independent review organization is affiliated with an academic medical center, or other similar medical research center, that is acting as an independent review organization under this section.

(g) The independent review organization shall have a quality assurance mechanism in place that ensures the timeliness and quality of the reviews, the qualifications and independence of the experts, and the confidentiality of medical records and review materials.

independent review organization, except in cases of gross negligence, recklessness, or intentional misconduct.

(i) An insurer, bound by the decision of the independent review entity, shall not be liable for following such decision. A determination by the independent review entity in favor of the insurer shall create a rebuttal presumption in any subsequent action at law that the insurer's coverage determination was appropriate.

(j) The Director shall, from time to time, enter into contracts with as many independent review organizations as the Director deems necessary to conduct the external appeals. The contracts shall set forth all terms which the Director deems necessary to ensure a member's right of appeal, including an assessment of separate costs to the insurer for the independent review organization review.

(k) As part of the contract process set forth in subsection (j) of this section, all independent review organizations shall submit to the Director and shall maintain a current list identifying all insurers, health care facilities, and other health care providers with whom the independent review organization maintains any health related business arrangements. The list shall include a brief description of the nature of any such arrangement.

(l) Upon receipt of any request for an external appeal, the Director shall assign that appeal to one of the approved independent review organizations on a random basis. The Director may reserve the right to deny any assignment to any independent review organization if the Director determines that making an assignment would result in a conflict of interest or would otherwise create an appearance of impropriety.

(m) The terms and conditions of a contract entered into pursuant to subsection (j) of this section shall provide that the reasonable direct costs of the external review process, not including costs of representation of a member, shall be paid by the insurer.
