EVV Program Overview
The 21st Century Cures Act, passed in late 2016, directs States to require the use of an Electronic Visit Verification ("EVV") system for Medicaid-provided personal care services and home health services.

The Cures Act requires EVV capture data 6 elements:

- Member receiving the services
- Caregiver providing the service
- Type of Service
- Location of the service delivery
- Date of the service
- Time the service begins and ends
High-Level Process Overview

DHCF sends eligibility, prior authorization and provider information to Sandata
