

# DISTRICT OF COLUMBIA (DC) MEDICAID Managed Care Plan 2026 CHILDREN'S REPORT CARD

## Comparing DC Medicaid Managed Care Plan (MCPs)

MCPs are responsible for organizing a network of providers who can deliver important care and services to children. This report card compares four performance areas for each MCP. Results are based on a variety of child-focused measures. You should use this report card, along with other items in your enrollment packet, to help you choose the MCP that best fits your child's needs.

<b>KEY</b>	Above DC Medicaid Average	★ ★ ★
	DC Medicaid Average	★ ★
	Below DC Medicaid Average	★

Performance Areas	AmeriHealth	*HSCSN	MedStar	Wellpoint
Access to Care	★ ★ ★	★ ★	★	★ ★
Staying Healthy	★ ★ ★	★ ★	★	★
Help with Chronic Conditions	NA	NA	NA	NA
Enrollee Experience with MCP	★ ★	★ ★ ★	★	★

NA means the rating is not available due to no data or insufficient data and does not describe performance by the MCP. It should not affect your choice of MCP.  
\*HSCSN's ratings have been included for informational purposes only. Enrollment in this health plan is based on specific criteria.

## Performance Area Descriptions

### Access to Care

- ★ Obtaining routine care promptly
- ★ Obtaining urgent care promptly
- ★ Obtaining regular dental care

### Staying Healthy

- ★ Babies and toddlers receiving an appropriate number of well-child visits
- ★ Children and teens receiving an annual well-care visit
- ★ Children receiving lead level testing

### Help with Chronic Conditions

- ★ Having access to prescription medicines
- ★ Having access to special medical equipment or devices
- ★ Having personal doctor or nurse who knows child
- ★ Getting needed information
- ★ Getting coordinated care
- ★ Having appropriate medication to control asthma
- ★ Having follow-up care after being prescribed ADHD medication

### Enrollee Experience with MCP

- ★ Getting needed care
- ★ Receiving coordinated care
- ★ Receiving good customer service
- ★ Rating all health care

Additional information including specific measures and data sources can be found in the *Children's Report Card Detailed Results* document available here: [Medicaid Reports](#)

- Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) CMS-416, <https://www.medicare.gov/medicaid/benefits/early-and-periodic-screening-diagnostic-and-treatment/epsdt-data>
- National Committee for Quality Assurance (NCQA) Healthcare Effectiveness Data and Information Set (HEDIS®) measures<sup>1</sup>, <https://www.ncqa.org/hedis/>
- Consumer Assessment of Healthcare Providers and Systems (CAHPS)<sup>2</sup>, <https://www.cms.gov/data-research/research/consumer-assessment-healthcare-providers-systems>

\*DHCF intended to include the following Core Set measures in the Access to Care star rating: *Oral Evaluation*, *Topical Fluoride for Children*, and *Sealants on Permanent First Molars*. However, due to insufficient data availability, the Access to Care star rating was instead calculated using two currently available dental care measures: *Eligible Enrollees Receiving Any Dental Services (CMS-416)* and *Oral Evaluation, Dental Services (Core Set)*, allowing DHCF to complete the star rating calculation. Future reporting will include the three required Core Set pediatric dental care measures if sufficient data is available.

\*\*The Help with Chronic Conditions star rating is primarily calculated using CAHPS results from enrollee surveys. In numerous instances, CAHPS results could not be used due to an insufficient (low) survey response, which impacted DHCF’s ability to develop a star rating for this performance area.
