

Questions and Answers

FY26 Implementing a Systemwide Approach to Produce Prescriptions Grant

- 1. Is eligibility for this Request for Applications (RFA) limited to nonprofit organizations, or will applications from for-profit entities be considered if they demonstrate mission alignment, experience administering Produce Rx–style programs, and the ability to meet all programmatic and reporting requirements?**

Eligibility for this RFA is limited to nonprofit organizations that meet all requirements for a Qualified Organization (see Section III.A). Any proposed sub-grantees or sub-contractors receiving funding to support program activities must also be nonprofit organizations.

- 2. How will Produce Rx activities interface with DHCF’s pending 1115 HRSN waiver?**

This grant will support DHCF in assessing sustainable strategies for scaling Produce Rx and other nutrition supports, including opportunities under the pending Section 1115 waiver renewal. Specific plans will evolve as the waiver process progresses (see <https://dhcf.dc.gov/1115-waiver-initiative> and <https://dhcf.dc.gov/page/health-system-redesign> for more information).
