Where necessary, the costs for an attendant which may include transportation, lodging and meals are also included. MAA has the final decision as to coverage for lodging, meals and attendants and the reimbursement for these.

- (3) The State assures that transportation services will be provided under a contract with a broker who:
- (i) is selected through a competitive bidding process based on the State's evaluation of the broker's experience, performance, references, resources, qualifications, and costs;
 - (ii) has oversight procedures to monitor beneficiary access and complaints and ensures that transport personnel are licensed, qualified, competent, and courteous;
 - (iii) is subject to regular auditing and oversight by the State in order to ensure the quality of the transportation services provided and the adequacy of beneficiary access to medical care and services;

- ☐ other (e.g., brokerage fee and direct payment to providers)

The broker is paid on a monthly capitation basis. Payment is on a per-member-per-month basis. Actuarial analysis was conducted on Medicaid fee-for-service transportation data to establish the rates paid to the broker. The broker in-turn makes payments to the transportation provider on a fee-for-service basis.

Description of the District of Columbia's Transportation Brokerage:

The Medical Assistance Administration (MAA) initiated a non-emergency transportation broker contract in July 2007. The non-emergency broker provides services to Medicaid and SCHIP enrollees that are not enrolled in managed care. Thus, all Medicaid and SCHIP enrollees that are in the fee-for-service program receive transportation services through the non-emergency transportation broker.

Recipients contact the broker when in need of transportation to a Medicaid covered service. The broker verifies enrollment in Medicaid or SCHIP, that the trip is to a covered service, arranges for the transportation, and reimburses the transportation provider. The broker has contracts with numerous transportation providers and assures that transportation is available throughout the Metro DC area.

The broker ensures that a Transportation Provider Service Agreement (TPSA) is executed with each transportation provider selected by the broker as a member of the broker's transportation network prior to the delivery of services. The broker may not establish or maintain transportation provider service agreements with transportation providers that have committed fraud against the District, Medicaid Assistance Administration, or any Federal agency or has been terminated from the District Medicaid program.

The Broker provides oversight and monitoring of the day-to-day operations necessary for the delivery of NET services, the maintenance of appropriate records, systems, and support services for reporting to MAA's Chief of Program Operations and maintaining compliance with the terms of the contract. Monitor the overall delivery of transportation services including vehicle, driver, and attendant requirements and performance to ensure the consistent delivery of quality NET services allowing recipients timely access to health care services.

The current contract with the broker was awarded in July 2007, with the option of 4 one-year extensions. Future year increases will be based on the transportation portion of the Washington-Baltimore Consumer Price Index.
