This report provides data on enrollment in DHCF programs that include Medicaid, the DC Healthcare Alliance, and the Immigrant Children's Program. It is based on DHCF Medicaid Management Information System data as of October 2, 2020. Medicaid counts include CHIP-funded beneficiaries, who can be identified by their eligibility category. Information provided here may differ from other reports for a variety of reasons, including the populations analyzed, the definitions used to categorize beneficiaries, and the point in time at which data was extracted from DHCF systems. The most recent months are labeled as "preliminary" and users should be aware that enrollment will be undercounted until at least three full months have elapsed.

Recent notable issues with regard to enrollment include:
- Due to a continuous coverage requirement for Medicaid as of March 18, 2020, which applies under the federal Families First Coronavirus Response Act as a condition of receiving a 6.2 percentage point increase in federal matching funds during the federal public health emergency, beneficiaries can only lose Medicaid coverage due to non-residency in the District, death, or a request to disenroll. Under District policies, continuous coverage extends similarly to Alliance and ICP beneficiaries. In addition, for the duration of the District's public health emergency, modified eligibility and enrollment policies are in place (e.g., expanded self-attestation for all DHCF coverage and removal of the face-to-face interview requirement for Alliance coverage).
-To reconcile information across DHCF systems, routine periodic "sync" operations are undertaken that may lead to changes in enrollment. Most recently, decreases in enrollment noted for September 2019 and February 2020 were due in part to a system sync that identified ineligible individuals who were ultimately disenrolled after being notified of the need for documentation to support a continuation of their coverage.
