DEPARTMENT OF HEALTH CARE FINANCE

NOTICE OF PROPOSED RULEMAKING

Private Duty Nursing services are nursing services for technology-dependent beneficiaries who require more individualized and continuous care than is available from a visiting nurse under the Skilled Nursing Home Health Services benefit or is routinely provided by nursing staff from a hospital or skilled nursing facility.

The current District of Columbia State Plan for Medical Assistance (State Plan) does not specify the details for provider requirements, or service delivery for Private Duty Nursing Services. To date, there have been no rules governing Private Duty Nursing Services under the State Plan.

These proposed rules establish general standards governing reimbursement for Private Duty Nursing services provided to beneficiaries under the State Plan and establish specific conditions of participation for providers of these services. These rules also clarify prior authorization requirements and establish higher reimbursement rates for delivering Private Duty Nursing Services. DHCF determined that the existing provider reimbursement rates were not sufficient to ensure an adequate supply of providers willing and able to provide Private Duty Nursing Services to District Medicaid beneficiaries.

Private Duty Nursing services provide care to some of the most vulnerable Medicaid beneficiaries who are technology-dependent. A technology-dependent beneficiary is a beneficiary who is reliant on assisted respiration and may require frequent oral suctioning and gastrostomy tube feedings; or the existence of another severe medical condition that requires monitoring or care on a continuous basis. These services are also provided to those technology-dependent beneficiaries who need a nurse to evaluate, manage, and provide ongoing nursing services in the beneficiary’s home. Further, these services are provided to those technology-dependent beneficiaries who need more individualized and continuous care due to an illness or injury than what may be provided under the Skilled Nursing State Plan benefit. The limited information in the State Plan, in combination with the absence of a related rulemaking has contributed to inconsistent quality of care and has hampered DHCF’s ability to hold provider’s accountable for care delivery and provide effective oversight. Additionally, the rate increases proposed in this rulemaking are needed to enable Home Health service providers to hire and retain staff to ensure continued access to Private Duty Nursing services under the State Plan.
The corresponding amendment to the State Plan must be approved by the U.S. Department of Health and Human Services (HHS), Centers for Medicare and Medicaid Services (CMS). The State Plan Amendment was approved by the Council of the District of Columbia (Council) through the Fiscal Year 2016 Budget Support Act of 2015, effective October 22, 2015 (D.C. Law 21-0036; 62 DCR 10905 (August 14, 2015)). Implementation of these proposed rules is contingent upon approval of the corresponding State Plan Amendment (SPA) by CMS, with an effective date of October 1, 2016 or the effective date established by CMS in its approval of the corresponding SPA, whichever is later. The District is proposing new reimbursement rates in FY 2016 for Private Duty Nursing services. The increase in aggregate expenditures related to the update in the reimbursement rates is approximately $681,094 for FY 2016 pro-rated from June.

The Director of DHCF gives notice of the intent to take final rulemaking action to adopt these proposed rules in not less than thirty (30) days after the date of publication of this notice in the D.C. Register.

Chapter 9, MEDICAID PROGRAM, of Title 29 DCMR, PUBLIC WELFARE, is amended as follows:

The physician’s signature on the order constitutes a certification by the physician that the services ordered reflect the health status and needs of the beneficiary, and that the beneficiary is technology-dependent and eligible for the service.

947.7 For all Medicaid reimbursable Private Duty Nursing services, effective October 1, 2016, the ordering physician shall:

947.10 The plan of care referenced in Subsection 947.3 shall be developed and signed by an R.N. who is employed or under contract to the Private Duty Nursing services provider. The signature of the R.N. on the plan of care constitutes a certification
that the plan of care accurately reflects the health status and needs of the beneficiary and that the services identified in the plan of care are in accordance with the physician’s order defined in Subsection 947.6.

947.11 The beneficiary’s physician shall approve the initial plan of care by signing it within thirty (30) days of the development of the plan of care, and noting his or her license number and National Provider Identification number on the plan of care.

947.12 The plan of care shall be reviewed and signed by the physician every sixty (60) calendar days.

947.13 The signature of the physician on an initial or subsequent plan of care constitutes a certification that the plan of care accurately reflects the health status and needs of the beneficiary.
