### ☐ Reasonable Classification of Individuals under Age 21

One or more reasonable classifications of individuals under age 21 who are not mandatorily eligible and who have income at or below a standard established by the state.

☐ The state operates this eligibility group in accordance with the following provisions:

☐ Individuals qualifying under this eligibility group must qualify under a reasonable classification by meeting the following criteria:

1. Be under age 21, or a lower age, as defined within the reasonable classification.
2. Have household income at or below the standard established by the state, if the state has an income standard for the reasonable classification.
3. Not be eligible and enrolled for mandatory coverage under the state plan.

☐ MAGI-based income methodologies are used in calculating household income.

The state covered at least one reasonable classification under this eligibility group under its state plan as of December 31, 2013, or under a Medicaid 1115 demonstration as of March 23, 2010 or December 31, 2013.
